

IMPORTANT INFORMATION

Account contributions in calendar year 2011 and subsequent calendar years will not qualify for annual matching grant awards. In July 2011, Minnesota's Governor and Legislature reached a budget agreement for the state's next biennium. Part of the budget agreement included the elimination of the Minnesota College Savings Plan annual matching grant program.

Note, the Minnesota Office of Higher Education retains ownership of all matching grants and earnings on matching grants based on 2001 to 2010 calendar year account contributions until a distribution is made to a beneficiary or an eligible educational institution for qualified education expenses.
